| <b>B</b> |  Wood Screws  | <b>4</b> |
| <b>C</b> |  Flat Washers | <b>6</b> |

| PART     | DESCRIPTION                                                                                        | QTY      |
|----------|----------------------------------------------------------------------------------------------------|----------|
| <b>D</b> |  Adjustable Arms | <b>2</b> |

### STEP 1

Attach the adjustable arm (**D**) to the seat cushion using the 1 1/4" bolt (**A**). Make sure to place a flat washer (**C**) between the bolt and arm. Tighten the bolt with the supplied allen wrench. *(as shown)*

### STEP 2

Drill the wood screws (**B**) into the seat cushion on both sides of the arm (**D**). Again, make sure to place a flat washer (**C**) between the screws and arm. *(as shown)*

### STEP 3

Repeat first two steps with other arm.
